Four Reasons to Switch to Alpen One-Piece Carbides

The majority of carbides sold today are based on 60- year old, two piece construction. The **NEW ALPEN CARBIDES** provide a comprehensive line of advanced one-piece carbides.

1. Eliminates Joint Breakage

One-piece construction eliminates brazed joint breakage and rusting.

2. Cuts Faster

Alpen Carbides cut up to 4x faster than the competition

3. Lasts Longer

Even after 5 cuts Alpen Carbides outperform most competitors first cuts.

4. Quality Guaranteed

Quality you would expect from Coltene/ Whaledent.
